EDUCATION

Bachelor of Technology

COLLEGE OF ENGINEERING & MANAGEMENT,
KOLAGHAT

2018 - 2022

Grade:- 8.5 SGPA

Courses

- Discipline : - Information Technology

Higher Secondary(12th)

Nardiganj College Nardiganj , Bihar

2017

Grade :- 60.60%

Courses

- Discipline :- Science(BSEB Board)

Senior Secondary(10th)

High School Orro Nawadah, Bihar

2015

Grade:- 63.8%

Courses

- Discipline:- Science(BSEB Board)

WORK EXPERIENCE

TRAINING & DEVELOPMENT

LTIMindtree

07/2023 - 08/2023

KAFKA: Real-time Data Streaming Application TIBCO : Real-time Event Monitoring & Order Processing System Integration

- Utilized KAFKA Streams for data transformations and filtering.
- Developed a real-time data streaming application using Apache Kafka to process and analyze high volumes of data.
- d TIBCO EMS for asynchronous communication between order creation and fulfillment services.
- Implemented producer and consumer components to demonstrate message publishing and consumption.
- Designed and implemented an end-to-end integration solution using TIBCO Businessworks to streamline order processing across multiple systems.
- Developed a TIBCO Hawk-based solution to monitor critical application events and trigger alerts for prompt issue resolution
- Tools: Confluent Control Center & Nifi.
- Operating Systems: Linux

SKILLS

Core Java

OOP'S

Java 1.8

Spring

SpringBoot

Rest API

Spring MVC

Microservices

JPA

Kafka

Tibco

MySQL

JDBC

C language

IDEs : IntelliJ IDEA

PERSONAL PROJECTS

Bookstore Management System

- Developed a Bookstore management system, a web-based application using Java and Spring framework to manage an online bookstore. There is a dashboard that contains(Home, Available Book, MyBooks, and New Book Register
- We can add a new book using the new book register then it will go to the store in the available book, available book has three options (Add to MyBook, Edit Book, Delete Book). if add a book then it will go to MyBooks and show all books.
- Technologies Used :
- Java: The core programming language used for developing the application logic
- Spring Framework: Used for building the web application and managing dependenc
- JPA: Used as an object-relational mapping tool for database interaction
- MySQL: The database management system used for storing book and user information.
- HTML: Front-end technologies used for creating a user-friendly interface.
