## MINI PROJECTS

### 1. Project Title: ONLINE STUDENT FEEDBACK SYSTEM.

**Duration:** Jan 2020-May2020

**Technologies Used:** PHP5.5,HTML5,Javascript,XAMPP server&My sql

**Role:** Organized the team as team leader, documentation, Requirement gathering and Coding.

**Description:** Online student feedback system is the web based feedback collecting system from the students and provides the automatic generation of a feedback which is given by students. So we called it a student's feedback system which delivers via the student staff interface as online system which acting as a service provider. The existing system carries more time to do a piece of work for this reason the online system feedback is implemented. First of staff can prepare questions & add, update these questions to the online system. After that it was viewed by the students and can give feedback about the lecturers'. Consolidated feedback details should be accessible in easily recognizable visual forms like graphs based on this report the admin can give counselling to the college staff.

### 2. Project Title: FILE ENCRYPTION & DECRYPTION

**Technologies Used:** Core Java

**Role:** Organized the team as team leader, documentation, Designing and Programming

**Description:** In the proposed system user encrypts all the files with distinct keys before uploading them into the cloud. The user can upload the files as private or public. However, public files can be downloaded directly, but to download the private files a user will send a request to the file owner. When the file owner accepts the request the application server provides a single Access key extracted from the attributes of the requested files. Using the private key cipher text is converted into plain text, and the plain text gets downloaded.

## STRENGTHS

- Able to do hard work as well as smart work.
- Able to work independently or as the part of team.
- Quick & Self learning capabilities & duty minded.

## TECHNICAL SKILLS

- Basic knowledge on **Python, Data Science, Data Visualization and Fundamentals of Machine Learning,Java,WebDevelopmentTechnologies.**
- Basic knowledge on software's **Jupyter Notebook,Jdk&XAMPP Server.**
